

# CONTENTS —VOLUME 19

## Number 1

Functional properties of HL60 cells matured with all-*trans*-retinoic acid and DMSO: differences in response to interleukin-8 and fMLP

Bryostatins stimulate normal human hematopoiesis and inhibit proliferation of HL60 leukemic cells

Cytokine modulation of interleukin 1 and tumour necrosis factor- $\alpha$  secretion from acute myelogenous leukaemia blast cells *in vitro*

Cytokine expression in adherent layers from patients with myelodysplastic syndrome and acute myelogenous leukemia

Interleukin-1 $\beta$  (IL-1 $\beta$ ) and acute leukemia: *in vitro* proliferative response to IL-1 $\beta$ , IL-1 $\beta$  content of leukemic cells and treatment outcome

Sensitivity of camptothecin-resistant human leukemia cells and tumors to anticancer drugs with diverse mechanisms of action

Expression of cell surface antigens during the differentiation of HL-60 cells induced by 1,25-dihydroxy-vitamin D<sub>3</sub>, retinoic acid and DMSO

Vitamin D<sub>3</sub> analogs: effect on leukemic clonal growth and differentiation, and on serum calcium levels

- 1 R. L. Sham, P. D. Phatak, K. A. Belanger and C. H. Packman
- 7 K. G. van der Hem, A. M. Dräger, J. H. Odding, M. M. A. C. Langenhuijsen and P. C. Huijgens
- 15 Ø. Bruserud, I. Nesthus, H.-J. Bühring and G. Pawelec
- 23 M. Wetzler, R. Kurzrock, Z. Estrov, E. Estey and M. Talpaz
- 35 K. Ezaki, M. Tsuzuki, I. Katsuta, F. Maruyama, H. Kojima, M. Okamoto, T. Nomura, M. Wakita, H. Miyazaki, R. Sobue, T. Matsui, T. Ino and M. Hirano
- 43 P. Pantazis, D. Vardeman, J. Mendoza, J. Early, A. Kozielski, A. DeJesus and B. Giovanella
- 57 D. Brackman, F. Lund-Johansen and D. Aarskog
- 65 S. Pakkala, S. de Vos, E. Elstner, R. K. Rude, M. Uskokovic, L. Binderup and H. P. Koeffler

## Number 2

### Original Articles

Bone marrow-derived T-cell clones obtained from untreated acute myelocytic leukemia exhibit blast directed autologous cytotoxicity

Induction of leukemia in mice using a radiation leukemia virus-induced cell line: a model system for studying oncogenic progression

Effects of erythropoietin, IL-3, IL-6 and LIF on a murine megakaryoblastic cell line: growth enhancement and expression of receptor mRNAs

Childhood cancers and competing causes of death

Viable bone marrow stromal cells are required for the *in vitro* survival of B-cell precursor acute lymphoblastic leukemic cells

Morphological comparison of dysplastic changes between *de novo* acute myeloid leukemia (AML) with trilineage myelodysplasia and AML developed from *de novo* myelodysplastic syndromes

Occupational and environmental exposures and myelodysplasia: a case-control study

Cytarabine-induced pericarditis: a case report and review of the literature of the cardio-pulmonary complications of cytarabine therapy

- 73 B. Jahn, L. Bergmann, E. Weidmann, J. Brieger, K. Fenchel, U. Schwulera, D. Hoelzer and P. S. Mitrou
- 83 E. S. P. Ho, T. J. O'Neill and H. C. O'Neill
- 95 H. Sasaki, Y. Hirabayashi, T. Ishibashi, T. Inoue, M. Matsuda, S. Kai, K-i. Ikuta, K. Yokoyama, T. Yokota, Y. Maruyama and S. Matsuyama
- 103 A. Stewart
- 113 D. M. Ashley, S. J. Bol and G. Kannourakis
- 121 K. Kuriyama, Y. Miyazaki, K. Arimura, K. Nagai, H. Nakamura, T. Matsuo and M. Tomonaga
- 127 R. R. West, D. A. Stafford, A. Farrow and A. Jacobs
- 141 S. Reykdal, R. Sham and P. Kouides

### Letter to the Editors

Early identification of M2 AML with the (8;21) translocation plus myelodysplastic features

- 145 D. W. Galvani, P. Banghar and L. Mekawi

## Number 3

### Original Articles

Potent vitamin D<sub>3</sub> analogs: their abilities to enhance transactivation and to bind to the vitamin D<sub>3</sub> response element

Growth inhibition of malignant CD5<sup>+</sup>B (B-1) cells by antisense IL-10 oligonucleotide

Radiotoxicity of 67-gallium on myeloid leukemic blasts

Drug combination testing in acute lymphoblastic leukemia using the MTT assay

Isolation of nucleic acid from paraffin embedded tissue for PCR amplification and sequencing of TcR V $\beta$  genes

TNF-mediated killing of human leukaemic cells: effects of endogenous antioxidant levels and TNF $\alpha$  expression in leukaemic cell lines

Relationship between responsiveness to colony stimulating factors (CSFs) and surface phenotype of leukemic blasts

Involvement of Fenton reaction products in differentiation induction of K562 human leukemia cells

Is aggressive chemotherapy the best choice for patients with acute nonlymphocytic leukemia after myelodysplastic syndromes?

Clinical characteristics of Japanese patients with primary myelodysplastic syndromes: a co-operative study based on 838 cases

### Letters to the Editors

Re: Pseudorelapse in acute myelomonocytic leukemia after high dose methylprednisolone

Clinical and biological significance of serum parathyroid hormone-related protein in adult T-cell leukemia

147 Y. Imai, J. W. Pike and H. P. Koeffler

159 B. Peng, N. H. Mehta, H. Fernandes, Chuan-Chu Chou and E. Raveché

169 A. R. Jonkhoff, P. C. Huijgens, R. T. Versteegh, A. van Lingen, G. J. Ossenkoppele, A. M. Dräger and G. J. J. Teule

175 G. J. L. Kaspers, A. J. P. Veerman, R. Pieters, I. Van Zantwijk, K. Hählen and E. R. Van Wering

183 E. Hodges and J. Smith

187 Li Jia, Xu-Rong Jiang, K. Razak, Yu-Ling Wu, A. C. Newland and S. M. Kelsey

195 A. Horikoshi, S. Sawada, M. Endo, M. Kawamura, J. Murakami, Y. Iizuka, J. Takeuchi, T. Ohshima, T. Horie and K. Motoyoshi

203 K. Nagy, G. Pásti, L. Bene and I. Zs.-Nagy

213 R. Latagliata, M. A. A. Spiriti, G. Avvisati, C. De Gregoris, P. Fazi, A. Spadea and M. C. Petti

219 S. Oguma, Y. Yoshida, H. Uchino, T. Maekawa, T. Nomura, H. Mizoguchi and the Refractory Anemia Study Group of the Ministry of Health and Welfare

227 M. Basade, S. Kulkarni and S. H. Advani

229 N. Sadamori, M. Mine and H. Kasahara

## Number 4

### Editorial

Secondary acute myeloid leukemia

231 J. M. Bennett

### Review

The insulin-like growth factor system in regulation of normal and malignant hematopoiesis

233 I. Shimon and O. Shpilberg

### Original Articles

Comparison of various *in vitro* assays for efficacy screening of immunotoxins

241 J. Post, W. C. Vooy, G. C. de Gast and B. J. E. G. Bast

Exogenous expression of human granulocyte colony-stimulating factor receptor in a B-lineage acute lymphoblastic leukemia cell line: a possible model for mixed lineage leukemia

249 S. S. El-Sonbaty, H. Tsuchiya, M. Watanabe, K. Hochito, T. Kunisada, A. Shimosaka and I. Matsuda

Evaluation of resistance index of several anticancer agents on parental and resistant P-388 cell lines

257 R. Testi, L. Mattii, D. Di Simone, L. Zaccaro, G. Malvaldi, B. Grassi and M. Petrini

Biochemical effect of three different inhibitors of purine/ pyrimidine metabolism on differentiation in HL60 cells  
Drug resistance mechanisms and MRP expression in response to epirubicin treatment in a human leukaemia cell line

Analysis of *c-kit* expression of human erythroleukemia cell line, HEL: clonal variation and relationship with erythroid and megakaryocytic phenotype

Upregulation of p21 RAS levels in HL-60 cells during differentiation induction with DMSO, all-*trans*-retinoic acid and TPA

## Comment

Cytotoxic T lymphocyte activity in acute leukemia

- 263 N. Ahmed and M. J. Weidemann
- 275 R. A. Davey, T. J. Longhurst, M. W. Davey, L. Belov, R. M. Harvie, D. Hancox and H. Wheeler
- 283 A. Kubota, S. Okamura, K. Shimoda, W. Ikematsu, T. Otsuka and Y. Niho
- 291 K. Kuliczowski, R. L. Darley, A. Jacobs, R. A. Padua and T. G. Hoy

297 R. Foa

## Number 5

### Original Articles

A screen for *RAS* mutations in individuals at risk of secondary leukaemia due to occupational exposure to petrochemicals

Karyotype at diagnosis, subsequent leukemic transformation and survival in myelodysplastic syndrome

*FMS* mutations in patients following cytotoxic therapy for lymphoma

Progenitor cells in the blood and marrow of patients with chronic phase chronic myeloid leukaemia respond differently to macrophage inflammatory protein-1 $\alpha$

Potential of retinoic acid-induced U-937 differentiation into respiratory burst-competent cells by nitric oxide donors

Activation of pp90<sup>rk</sup> and early growth response-1 gene expression by pokeweed mitogen in human B cells

HSP70 production and inhibition of cell proliferation in Molt-4 T-cells after cell-to-cell transmission of HTLV-I: effect of PGA<sub>1</sub>

299 C. Taylor, D. C. Hughes, E. Zappone, M. Cazzola, G. Carter, A. Jacobs and R. A. Padua

303 J. Musilová, K. Michalová, Z. Zemanová, R. Neuwirthová, A. Dohnalová and the Czechoslovak MDS Cooperative Group

309 A. Baker, P. Cachia, S. Ridge, H. McGlynn, R. Clarke, J. Whittaker, A. Jacobs and R. A. Padua

319 N. Nirsimloo and M. Y. Gordon

325 A. Yamazaki and H. C. Birnboim

337 D. Chauhan, S. M. Kharbanda, H. Uchiyama, M. Urashima and K. C. Anderson

345 C. D'Onofrio, A. Puglianiello, C. Amici, I. Faraoni, G. Lanzilli and E. Bonmassar

### Letter to the Editors

Translocation (8;21) in acute myeloid leukemia: when to treat? That is the question!!

357 J. M. Bennett

359 Announcements

## Number 6

### Review

Epidemiologic perspectives on myelodysplastic syndromes and leukemia

361 P. Cole, W. Saterren and E. Delzell

### Original Articles

A distinct subtype of M4/M5 acute myeloblastic leukemia (AML) associated with t(8;16)(p11;p13), in a patient with the variant t(8;19)(p11;q13)—case report and review of the literature

367 B. Stark, P. Resnitzky, M. Jeison, D. Luria, O. Blau, S. Avigad, D. Shaft, Y. Kodman, R. Gobuzov, S. Ash, J. Stein, I. Yaniv, Y. Barak and R. Zaizov

Cytogenetic correlation with disease status and treatment outcome in advanced stage leukemia post bone marrow transplantation: a Southwest Oncology Group Study (SWOG-8612)

Detection of major and minor bcr/abl fusion gene transcripts in a patient with acute undifferentiated leukemia secondary to treatment with an alkylating agent

The extracts from rat submandibular glands induce the erythroid differentiation of K-562 cells

Clinical significance of tissue polypeptide antigen in serum of acute nonlymphocytic leukemia

*In vitro* autonomous proliferation in ANLL: clinical and biological significance

Influence of serum levels on leukemic cell destruction by the ether lipid ET-18-OCH<sub>3</sub>

## Meeting Report

1st International Conference on Reversal of Multidrug Resistance in Cancer

- 381 M. L. Slovak, K. J. Kopecky, S. R. Wolman, J. P. Henslee-Downey, F. R. Appelbaum, S. J. Forman and K. G. Blume
- 389 M. Hattori, M. Tanaka, Y. Yamazaki, Y. Nakahara, K. Tsushita and M. Utumi
- 397 R. Sasaki, A. Masuyama, Y. Etoh, H. Yoshida, Y. Miura and H. Sasaki
- 407 N. Sadamori, M. Mine, T. Kawachi, T. Hayashibara, T. Itoyama, I. Sasagawa, H. Nakamura and M. Tomonaga
- 411 J. Almeida, C. del Cañizo, A. Orfao, J. Hernandez, D. Hernandez, J. Galende, D. Caballero, R. Garcia-Sanz and J. F. San Miguel
- 417 E. C. Heesbeen, G. Rijksen, H. G. van Heugten and L. F. Verdonck

- 427 T. J. Hamblin

## Number 7

### Guest Editorial

Multidrug resistance is more than *MDR1* activity

### Original Articles

A human CD4<sup>+</sup>CD8<sup>+</sup> T-cell receptor  $\alpha\beta$ <sup>+</sup> T leukemic cell line undergoing phytohemagglutinin-induced apoptosis

Increased ratio between deoxycytidine kinase and thymidine kinase 2 in CLL lymphocytes compared to normal lymphocytes

The induction kinetics of IL-8 messenger RNA in HL60 cells demonstrate the participation of negative-acting gene(s)

The protein kinase C inhibitor H7 blocks phosphorylation of stathmin during TPA-induced growth inhibition of human pre-B leukemia REH6 cells

Enhanced oxygen consumption and fatty acid metabolism in rat bone marrow with acute promyelocytic leukaemia

AML blasts variably express interleukin 2 receptor  $\alpha$ ,  $\beta$  or  $\gamma$  chains without measurable effects on proliferation, cytokine message expression or surface expression of adhesion molecules upon stimulation with interleukin 2

Successful treatment of an infant with veno-occlusive disease developed after allogeneic bone marrow transplantation by tissue plasminogen activator, heparin and prostaglandin E<sub>1</sub>

Characterization of 7q<sup>+</sup> by FISH technique of a case with acute myelogenous leukemia evolving from agnogenic myeloid metaplasia

- 429 H. D. Preisler
